### REQUIRES A CAUSTIC WASH

WASH TICKETS ARE VALID FOR 96 HOURS.

- (1) Lecithin requires a caustic wash followed by a regular wash. Each wash must be documented on a separate wash certificate.
- (2) Includes oil that have been through processes such as hydrogenation (hydro or part-hydro), inter-esterification (IE), winterization or fractionation.
- (3) Tanker capacities MUST be evaluated prior to loading.

**NOTE(s): Lysine** is an acceptable prior load for crude oils only.
